

WHAT IS THE 'BIBLE STORIES' STEP?

This year is great place to start developing a habit for your child to read the bible. The recommended resources will not only set a foundation for them to understand the bible, it will also help them to love reading the bible.

Reading the bible isn't a chore, it's a joy! This means as a parent, you will want to make sure that developing this habit is as natural as possible so choose the best time for you.

RESOURCES

- *Illustrated Bible*
- *Bible App for Kids*
Download on Smartphone

THE COMMITMENT OF THE PARENT

Your commitment this year is to help your child love reading the bible!

SOME IDEAS:

- **Act Out the Story**- To help your Child remember the bible story, incorporate some acting out.
- **Read before bed**- This is a great time to include a bible story in the night time reading.
- **Let Your Child Read to You** - using some great picture books or bible apps your child can retell the story 'reading' it back to you.

THE COMMITMENT OF THE CHURCH

In our Calvary Kids program, we are committed to using Bible Stories in our weekly program. This is used by focusing on one story each month and highlighting different values in that story each week. Ask your local Kids Director what the Curriculum schedule is so you can work with that in your regular reading.
